

A photograph of a modern shower enclosure. The enclosure is made of glass panels held together by chrome-colored metal components. Inside, there is a chrome showerhead on a vertical bar, a horizontal bar for support, and a built-in shelf holding a bottle of Dettol disinfectant. The walls are covered in white square tiles, and the floor is dark grey with a central square drain. The text "Shadow Semi-Frameless" is overlaid in a large, white, serif font, with "clean, elegant yet cost-effective" in a smaller, white, sans-serif font below it.

Shadow Semi-Frameless
clean, elegant yet cost-effective

The Tabicat logo, featuring a stylized orange 'C' shape with a white swoosh inside, followed by the word "Tabicat" in a white, bold, sans-serif font.

Tabicat

Designed to reduce leakage and optimize ease of cleaning, The Shadow by Tabicat features a minimal profile, toughened glass panels, and the highest-quality aluminium components of their type.

Elegant Semi-Frameless Solutions

The Shadow by Tabicat:

- ◆ Eliminates the use of glazing rubbers, which accumulate soap, mildew and other residue, and are prone to discoloration and deterioration over time.
- ◆ Uses a minimal amount of aluminium, to further prevent accumulation of soap and residue. Channels which will collect and allow water to stagnate are not used.
- ◆ Made from locally manufactured 6mm toughened glass which meets Australian standards, and never laminated glass, which is prone to discoloration and "brown creep" over time.
- ◆ Utilizes an unobtrusive polycarbonate strike and overlapping door system to protect against leakage.
- ◆ Features a door pivot system which is more lightweight than our robust frameless hinges, but is still the best of its type.

Available Styles

The Shadow is available in 90° and 180° front-only styles, which can be designed to accommodate inline panels in addition to sidelite, as well as on-hob or dogleg return panels. Also available are 135° splay styles. Aluminium profiles are available in satin and chrome.

Clean and Minimal

Just like our frameless screens, the Shadow is designed and manufactured with quality and care; custom-fitted to perfectly suit your bathroom, to ensure a tidy and minimal seal.
